Chair's report	Chair and MC visited the new Hydrotherapy Therapy pool at Vranck House. The eco friendly unit is built to a high standard measuring 10 m x 5 m, comprises of three hoist to allow patients the ability to moved directly from the changing room to the pool, to the shower and to the lavatory areas. Mood lighting enables patients to relax with colour changes and patterns being displayed on the pool floor and one wall.  LC advised a new small Hydrotherapy Pool was opening in Taunton shortly.

	<p>Chair stated CSPC was originally allocated 2 acres on the neighbour hood plan, however this may be insufficient to cover the parking of cars and coaches and a more realistic acreage would be closer to 2 hectares (20,000 square metres).</p>

Chair thought an alternative colour may be appropriate too - Navy Blue. MC agreed to source said product</p>
